Need Help with Housing?

Are you behind on rent or worried about eviction?

If you received an eviction notice or court papers, do not ignore them. Contact Legal Services Alabama as soon as possible.

Need affordable housing?

Your local Housing Authority is a good place to start. Housing authorities may offer public housing, income-based rental housing, or Housing Choice vouchers (Section 8).

Is your home unsafe or too expensive to heat or cool?

The Weatherization Assistance Program helps eligible households improve their home's energy efficiency and may address certain health and safety concerns.

If you are worried about losing your housing? Ask for help as soon as possible.

Do not wait until you have to leave your home. Waiting lists can be long, and some programs may not always be accepting applications.

What should I have ready?

- Photo ID
- Social Security information
- Names and dates of birth for household members
- Proof of household income
- Lease or rental agreement
- Rent amount and landlord info
- Eviction notice or court papers
- Utility bills or disconnect notices
